

SkyJester's Wings over Marl 2010

Friday 13 was not that bad at all but Saturday was like right out of a picture postcard ordered by Guido.

Presentation ceremony Time Pro

Let's just start with the sensation:
Helmut Tacke reached the time of 87.3 seconds over the measured distance 1000 meters which is a new world record with a valid measurement in an international competition.

Once the framework having been organized and the plane (Twin Otter) made available by the association thanks to Guido Bleckmann (chief instructor) the flight results could be followed almost simultaneously on the internet. This was made possible by the enormous support and help from Klaus Rheinwald / PARALOG and Steffen „Kaba“ Kawallek. On www.wingsuitcompetition.com you are able to get the results as well as information about the pilots (wingsuit/ vertical speed/ etc.) and the performance curve of the flight competition runs.

Which looked like this in the case of Helmut Tacke:

22 loads with 426 slots in total!

Rolf (the indispensable helping hand) and Solveig took turns at the landing area to collect the electronic devices and hand them over to Klaus and Kaba as fast as possible.

The Twin Otter was available for the whole weekend. On Saturday the record of the association was broken:

Until sunset all the participants were done with their time runs but two more loads were possible with bigger flock formations. Jarno Cordia, who came as a competitor, load organizer and coach from the Netherlands, organised a beautiful flock formation with 15 wingsuit pilots who had a blast up to separation. ✍

Later all the videos and different camera perspectives were evaluated together with Jarno who never got tired of sharing his knowledge until the late night and caused quite a lot of moments of sudden insights.

Our well-being was taken care of:

Danja Werner had cooked excellently. There was nice chilli, pasta and ratatouille on Friday and chicken, veggy rice, potatoes and gravy on Saturday. The culinary delight was crowned by a gorgeous fruit salad.

Of course, the obligatory Jester Tart wasn't missing on Saturday and Sunday.

In the evening, like last year, Guido organized nice cool Fiege draft beer and thanks to that it got late and cosy at the campfire.

This year we were extremely happy to see many new faces.

In total there were 30 pilots participating. Among them 4 tracksuit participants because they haven't yet reached the minimum of 200 jumps but none the less were following the sporty thought of taking part - which is what counts.

This was rewarded right away: Kaj Sewald was able to take home a brand-new wingsuit as he came terrificly close to his own estimated time at the PokerRun.

Florian Kaschuba made the distance of 1262m with a tracksuit leaving some experienced wingsuiters behind.

The new category „Time Intermediate“ was introduced to give a chance to those participants who started with smaller suits and/or unfavourable wingload \neq and weren't even close to reach world record times .

Presentation ceremony Time Intermediate

As always, at the Time Run all three competition times were measured together but only the pilots who passed the 50 second limit in no one of the three jumps stayed in the Intermediate Category. This new regulation found great approval even of the pros who had to expect lower prizes this way.

Toni Stadler (14), probably the youngest wingsuit pilot worldwide, started in a Birdman S6 and held place 12 from 22 in the Intermediate Category.

At the award ceremony on the rainy Sunday afternoon almost every participant was still present.

Tobi, who participated in the competition despite of a heavy cold, was represented by his little son David. We were happy that he managed to come a little later for some photos on the medallists' podium.

Regarding the PokerRun the participants were given cards which entitled them to choose their prizes presented on a table in accordance to the order in which they had met the most accurate estimate (best estimate first / worst last). There could have been a problem because there were double winners on the 3 first places but everything worked out fine.

1. choice: Volker Manz / Kaj Sewald 0.1
 2. choice: Sandro Böhme / Alex Piredda 0.5
 3. choice: Oliver Brachmann / Kai Rüber 0.6
 4. choice: Florian Kaschuba 0.7
 5. choice: Martina Engelbrecht 1.0
 6. choice: Daniela Busatta / Christian Stadler 1.2
- etc.

Both Kaj Sewald and Volker Manz were out by 0.1 seconds of their flight time in time jump n° 3 and took both first place.

They decided to draw lots: Kaj got the wingsuit and Volker chose the voucher for a 4 years or 8 years Cypres maintenance.

This year the SkyJester's Wingsuit Special Award was awarded for the 3rd time and went to Jarno M. Cordia who makes a wholehearted effort for the sport with activities like Fly like Brick and many others. He provides 3D animations, teaching videos, software etc.

and never gets tired to share his knowledge and infects everybody with his enthusiasm.

Finally, there was SkyJester tart once more and then good bye to all those who came from far away like the couple Sandro and Susanne Böhme who have been supporting SkyJester's Wings over Marl with their participation right from the beginning. This year they brought along two

more jumpers: Yuri and Oliver from Schweighofen. Tony Uragallo arrived from the USA again without any advanced notice. Friday afternoon he presented himself in Marl and by the way convinced Tim to take part as well. Then Jose from Portugal, Martina, Charley, Dirk, Rob, Kai, Andrew, Jarno...

Many thanks to all the participants, the helping hands, the association, Danja & Matthias, the sponsors, the manifest and to Django (Reinhold Hertl) who took care of the best photographs from any kind of perspective.
